STATE: PROPOSED NUMBER:

AR 2015 AR 6991

AGENCY: Department of Environmental Quality/Hazardous Waste Division

TOPIC: Hazardous Waste / Solvent Wipes- amends rules concerning Regulation 23, Hazardous Waste Management. Proposed amendments will include the addition of conditional exclusions from regulation for solvent wipes which are cleaned for reuse, and for carbon dioxide streams used in geologic sequestration operations. Establishment of an electronic waste manifest system to track shipments of hazardous wastes. Revision of provisions affecting cathode ray tube exports. Termination of the National Environmental Performance Track Program, which has been discontinued by the U.S. Environmental Protection Agency, and the correction of typographical errors, erroneous citations, and formatting inconsistencies in the current regulation

CA 2016 CA 23646

AGENCY: State and Consumer Services Agency/Department of Consumer Affairs/Bureau of Automotive Repair

TOPIC: Advertising - Clarifies that mobile automotive repair dealers must register with the Bureau and be subject to laws and regulations relating to automotive repair. Adapts existing advertisement requirements for automotive repair dealers (ARDs) to the mobile ARD business model in terms of what and where certain business information must be displayed to customers. Requires mobile ARDs to provide every customer with a copy of an official ARD sign. Updates the forms of advertising any repair technician may use, and by such use be deemed an ARD for purposes of regulation, to include the Internet.

AGENCY: **Department of Revenue/Division of Sales and Use Tax**

TOPIC: **Tire and Battery Fees- the purpose of the proposed amendments to Rule 12A-12.001, F.A.C. (New Tire Fee), is to: (1) reorganize the rule to improve readability and simplify provisions regarding the new tire fee; (2) clarify that the fee is applicable when a new motor vehicle tire is sold to a governmental entity or a tax-exempt entity; (3) provide that the fee is not to be marked up beyond the statutory rate; (4) clarify the term "motor vehicle" for purposes of the fee, providing examples of various types of vehicles and whether the tires sold for use on such vehicles are subject to the fee; (5) provide that tires used on racing vehicles that are not operated on Florida highways are not subject to the new tire fee; (6) revise the suggested exemption certificate used to purchase tires for vehicles that are not subject to the fee; and (7) put dealers on notice of the requirement to maintain the exemption certificates in their records.**

The purpose of the proposed amendments to Rule 12A-12.0011, F.A.C. (Battery Fee), is to: (1) reorganize the rule to improve readability and simplify provisions regarding the lead-acid battery fee; (2) clarify that the fee is applicable when a battery is sold to a governmental entity or a tax-exempt entity; (3) provide that the fee is not to be marked up beyond the statutory rate; (4) adopt the revised provisions of Rule 12A-12.001, F.A.C., regarding the definition of "motor vehicle" for purposes of the fee; and (5) clarify the definition of a "new" lead-acid battery and a "remanufactured" lead-acid battery for purposes of the fee.

IN **2012 IN 12200**

AGENCY: **Department of Environmental Management/Solid Waste Management Board**

TOPIC: **Waste Tires-This rulemaking proposes changes to the waste tire management rules at 329 IAC 15. The rule changes are intended to clarify and update the rules to address current conditions in the industry, and incorporate statutory changes mandated by Public Law 37-2012 into the rules. These changes include eliminating outdated references to Indiana Code (IC) citations, adding definitions and references to improve clarity in the rule, removing the waste tire transporter manifest form from the rule, and updating financial assurance requirements. In addition to those updates, the statutory changes will authorize local government tire amnesty programs as another means to collect and process waste tires. All of these rule changes are designed to increase the efficiency and accuracy of the waste tire rules rather than initiate a major overhaul of waste tire management. The main groups that will be affected by the rulemaking are the transporters, storage sites, and processing sites in the waste tire management industry.**
